

PAEDIATRIC PHYSIOTHERAPY

UC Physio offers paediatric physiotherapy services exclusively to children from infancy to adulthood (0-18yrs). Our professional physiotherapists aim to optimise your child's physical development and functional performance throughout the various stages of their development.

UC Physio offers professional service for a broad range of issues, including:

- Developmental delay (delayed milestones such as rolling, sitting, crawling, walking)
- Your child has an unusual walk or foot posture
- Plagiocephaly and torticollis
- Aches or pains with activity or rest
- To help with recovery after injury or surgery
- Cerebral Palsy
- Spina Bifida and other neural tube defects
- Toe-walkers without reason
- In toeing
- Low-tone/floppier infants and children
- Brachial plexus injuries
- Muscular dystrophy
- Juvenile arthritis
- Developmental coordination disorder
- Other conditions where physical function is inhibited.
- Generalised musculoskeletal issues (sore neck, sport injury)
