What's been happening at OSHC

Dear OSHC Families,

Over the last few weeks, our team here at Camp Australia have dived head first into the wonderful and intriguing world of science (and our curiosity is increasing by the day)!

We've spent a lot of time outdoors lately, digging in the dirt and discovering the many natural wonders of the world (like how seeds sprout, or how crystals are formed!), as well as plenty of time inside conducting all manner of experiments!

We've had paper plane races to test how aerodynamics work in action, we've looked at chromatography and how ink spreads across a paper towel when it becomes wet, we've studied our own fingerprints and discussed DNA, blood types, and more, we've made slime, built windmills, erupted our very own volcano, played with different sounds and the way our ear canal works, created tornadoes inside bottles, played with balloons and static, and much much more!

While we already know that your children love their time with us, we also love hearing from YOU, so please take a moment to leave your feedback, suggestions, or ideas on our "Parent Propositions" clipboard by the sign in/out table, or – even better – flag an educator down for a quick chat before you go!

Until next time, keep smiling & continue to watch this space!

OSHC
TEAM

Family Feedback

We welcome your feedback .

Your ideas, thoughts and suggestions are important to us and help us to create a quality service for you and your children.

Please let us know. Email, phone, chat..

We also are always on the look out for recycled materials and ideas for cooking, activities & experiences.

COLDS AND FLU

If you notice that your children are unwell in the morning, it is important that you keep them home to prevent the spread of illness. We have very swiftly moved into Cold and Flu season and have had many children go home unwell. Many thanks for your cooperation.

THIS WEEK AT CAMP AUSTRALIA!
