

Camp Australia Newsletter

Term Two Week Four

Hi Families,

I hope all of you had an amazing Mother's Day and enjoyed some of the gifts the children created for you. We have had another awesome couple of weeks here at Camp Australia, with the children creating a room display with rainbows which represents their feelings around this pandemic. We found a beautiful quote which read 'after every storm comes a rainbow', the children then came up with the idea to water colour some rainbows and display these on the service wall.

We have also been working on some more room displays which I cannot wait for you all to see. We have some amazing artists amongst our students and they have been working hard on their art pieces. Next week throughout our program we are running some 'being, belonging and becoming' activities, which focuses on the children's learning, their strengths, their goals and themselves. We want everyone in our care to feel super important which is why we have decided to do these activities. Some of the activities include, self-portraits, about me posters, a goal wall and a selfie wall display. All of our activities throughout our program are either child initiated, spontaneous or teacher initiated from

observations we have made throughout sessions. If any of you have any input or suggestions for the service programmed activities and experiences, please feel free to have a chat to me as I would love your feedback.

Just a super quick reminder that we are still signing the children in and out of service, we also encourage parents to drop off and pick up at the service door; to prevent the spread of germs and to protect our children and families.

I would also just like to say a huge thank you to all of the families for their cooperation and feedback during these unprecedented times.

I look forward to seeing and speaking to you all super soon.

Kind Regards,
Maddie and the Camp Australia team.
